

Update 1

Answer the questions below and submit them as a PDF. Please try to keep it brief.

1. At this point, you should have started researching your topic. Briefly describe what you have learned so far.
2. If you have already started coding, briefly describe your progress. If not, what is your current plan for the coding portion?
3. List any questions or concerns you have about the project so far. Again, I do not have time to “grade” or give feedback on everyone’s work so far. But I can address any specific questions or concerns you might have.
4. Give a brief summary of what each member of your group has done so far.
